Summary

I'm a full-stack developer with 7+ years of experience: the last three in fintech and payments, and before that commerce software for businesses in Myanmar and around Southeast Asia (online shops, restaurants, warehouses and money changers). Most recently I was Front-End Team Lead at Joy, a payments company (2023–2026), and took on the back-end team as well in 2024, while still writing much of the code myself. I've lived in Da Nang and worked 100% remotely since 2023. Available immediately.

Experience

Front-End Team Lead (also led the back-end team from 2024) Sep 2023 – Sep 2026

Joy · Fintech / payments · Remote (Thailand / Vietnam)

Reported to the IT Manager and Managing Director; worked day-to-day with the Project Manager across a fully remote team in two countries.

- Led the front-end team of 7–10 engineers; took on the 2–3 person back-end team in 2024, giving me ownership of web, mobile and API delivery.
- Ran sprint planning, reviewed pull requests and owned release sign-off for the web and mobile (iOS / Android) apps.
- Introduced an API-contract-first workflow: front-end and back-end agreed the API contracts before anyone started building.
- Built fintech product features myself in Next.js and React Native, with NestJS services on PostgreSQL and MongoDB.

Senior Front-End / Mobile Developer Jan 2023 – Sep 2024

Anbuchi · Fintech / payments · Remote, part-time

A contract I did alongside Joy. I kept their PWA, marketing site and admin dashboard working and added features to them, looked after the React Native app on Android and iOS, and maintained an Angular project for about six months.

Co-Founder & Lead Developer Apr 2022 – Jun 2023

Compass · Yangon, Myanmar · Run alongside my role at Circles X

A small startup building an e-learning platform and a delivery app, and offering digital marketing services to small businesses. I ran the development side: chose the stack (React, Next.js, NestJS, PostgreSQL, React Native) and took our web and mobile products from first idea to release.

Full-Stack Developer May 2020 – Aug 2023

Circles X · Yangon, Myanmar

Client projects. The biggest were Zay Sine, a SaaS e-commerce platform with web and mobile storefronts, a depot management system for COSCO, and Digi-M.

- Mostly built REST APIs and admin dashboards with Node.js, NestJS and Express.
- From 2022 I also mentored junior developers part-time in React, Node.js and TypeScript.

Earlier 2017 – 2020

Yangon, Myanmar

Web development intern at Zwenexsys International (2019 to 2020). Before that I built static websites at Innovative Technology (2017 to 2018).

Some things I've built

- **Restaurant POS.** Landing page, super-admin panel, and separate cashier and staff apps, each with its own roles, notifications and printing.
- **Zay Sine.** SaaS e-commerce with a merchant admin and web and mobile storefronts.
- **Warehouse system.** Panels for resellers, admins and inventory.
- **Two currency exchange apps.** Admins update rates, users get Firebase push alerts.
- **Jewellery store.** Storefront and admin, deployed on Vercel.

28 projects on my portfolio site. Happy to do live coding on a real problem in an interview.

Skills

Languages	TypeScript · JavaScript
Front-end	React · Next.js · Vue.js · Angular · Redux · Tailwind CSS · Material UI · Ant Design · PWA · Three.js
Back-end	Node.js · NestJS · Express · REST API design · GraphQL · WebSocket (Socket.io) · Message queues (RabbitMQ / BullMQ)
Mobile	React Native (Expo bare) · Firebase Cloud Messaging
Databases & caching	PostgreSQL · MongoDB · MySQL · Redis
Cloud & DevOps	AWS (EC2, S3, RDS, Lambda) · Docker · CI/CD (GitHub Actions / GitLab CI) · Nginx · Linux · DigitalOcean · Vercel
Testing	Jest · Mocha · Cypress
Tools	Git (GitHub, Bitbucket) · Cursor · Claude

Education

B.C.Sc., Computer Science · University of Computer Studies, Yangon 2014 – 2019

ASEAN Data Science Certificate · Full-Stack Developer Certification, Circles X

Languages

Burmese — Native · English — B2, daily at work · Japanese — JLPT N4

Hobbies

Building 3D worlds and characters in Blender and Spline · Football, mostly the Champions League · Camping, hiking and day trips
